Thank you, Mr. Lowell. That would be very helpful. I believe we're also still waiting for the financial paperwork as well.

CAUTION - EXTERNAL:

Ms. Bray,

Last week, I wrote the Special Counsel to ask their view of extending the sentencing date for a few weeks to the end of November or early December. I provided them the reasons, ranging from the things we are doing to submit in Delaware and now California, the unavailability because of government work and the campaign of people for whom we want to get letters, numerous work/deadlines in other cases (some of which are Mr. Biden's), holidays, and a pre-trial conference I have in California on November 12. I have not heard back from them yet. I wanted to let you know because it might also then allow for a bit more time in various things on which you are working. I plan to follow up with the SCO this week and file something with the Court.
